

HELIAX® SUREFLEX® F4C JUMPER

Introducing the HELIAX® SureFlex® F4C jumper from ANDREW. Identical to our SureFlex F4A, the F4C provides the same great flexibility, durability and PIM-tested RF performance—with one big difference. The SureFlex F4C jumper is green, in more ways than one.

By improving the manufacturing process, ANDREW reduces the amount of energy used and waste created. The result? A more environmentally sustainable solution with a smaller carbon footprint. So, you get more of what you want and less of what you don't:

- Smaller carbon footprint
- Compatibility with your existing jumpers
- All popular connectors, male and female are available
- Rugged nonhalogenated polyolefin jacket
- Available as flame retardant (CPR-rated B2ca) and non-flame retardant
- Reliable low-loss performance
- PIM is tested, measured and confirmed

WE NEVER STOP SEARCHING FOR BETTER

The story behind the development of the SureFlex F4C reflects ANDREW's constant search for better. We're never satisfied, because you face new challenges every day. When you do, we'll be there with the innovative solutions and strategies you need to keep evolving.

To learn more about our new HELIAX SureFlex F4C jumper, contact your local ANDREW representative today or visit our website.

Frequency band	VSWR	Return loss (dB)
698–960 MHz	1.06	30.7
1427–2200 MHz	1.06	30.7
2200–2700 MHz	1.11	25.7
3400–3800 MHz	1.23	19.7
