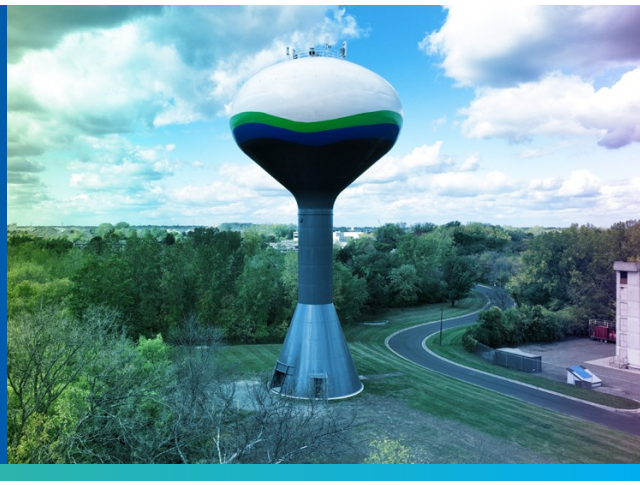
ESTECH MAGNETICS

OUTDOOR WIRELESS SOLUTIONS

MAGNETIC MOUNTING, MADE SIMPLER

AVAILABLE THROUGH DISTRIBUTION AND RESELLERS

ANDREW and Estech Magnetics combine proven wireless infrastructure expertise with high-strength magnetic technology. Built for the field, these solutions help crews install cable supports, equipment and antenna mounts on steel structures with fewer tools and steps, reducing time on site while maintaining structural integrity and long-term performance.



WHY MAGNETIC MOUNTING?

Faster installation

Reduce tools, installation steps and time on site to help lower operational costs.

Controlled placement

Control Hoverbolt™ placement with a 1/2-inch socket wrench.

Flexible fit

FLEX™ brackets conform to flat, convex and concave steel surfaces.

FEATURED MAGNETIC SOLUTIONS

TALON™ 2 FLEX

Two-position cable and equipment support for curved steel surfaces.

SIDEWALLFLEX™

Antenna mounting for outdoor steel surfaces.

TALON™ OPGW

Optical ground wire support for utility structures.

HALOMAG™

Custom magnetic antenna support for water tower roofs.

MAGFOOT™ 326

Structural attachment with 326 high-strength magnetic units.

TRIPODMAX™

Magnetic antenna mounting tripod for steel structures.
